- 10. Clay planet does not allow pieces to be glazed on the bottom without calling first for approval.**
- 11. Pieces that require stilting or excessive glaze cleaning to protect our kiln shelves cost an extra \$0.50 each.**
- 12. Items will be discarded by Clay Planet after 60 days... No exceptions.**

Disclaimer: Clay Planet is not responsible for pieces damaged due to the reasons noted in this disclaimer. Any damage to kilns or shelves caused by defects in the customer work is the responsibility of the owner of the piece. All cost involved in repair of kiln or replacement of shelves will be covered by the owner of the piece.

It is your responsibility to insure all pieces are ready for firing to reduce the chances of the piece exploding in the kiln. **Pieces must be completely dry** and ready for firing. Your pieces will be fired alongside other customers pieces, and you accept the risk of theirs possibly damaging yours. Please do not glaze the bottom of pieces unless absolutely necessary! Please remove any interior paper/styrofoam or other material before bringing items to fire. We will not fire anything non-clay.

Common Issues: Firing defects are usually caused by poor construction of the piece, dampness, air bubbles, over or under glazing, etc. Please be aware there are times when pieces may explode or crack, glazes may chip, shiver, crawl, or run in the firing. At Clay Planet, experienced potters and technicians perform firings in tested quality kilns.

Agreement: I agree to the terms above, have read and understand the disclaimer, and do not hold Clay Planet nor it's employees responsible for loss of any pieces fired on the premises. All information stated is accurate and correct.
